Experience

Technical Manager, CATHEXIS

January 2025 - Present

- Lead a team of **5–7** direct report engineers working across multiple projects, serving as a liaison between engineering, [C3.AI](#) leadership, and Cathexis executive stakeholders to ensure strategic alignment, clear communication, and successful delivery.
- Meet with team members one on one to openly discuss their goals and support their growth as an engineer and teammate
- Onboard and guided **20+** new software engineers, as well as streamlining onboarding systems reducing onboarding period to as short as **one day**
- Screen potential candidates for engineering roles and conduct technical interviews to determine fit
- Partner closely with individual team members to identify growth areas and provide tailored mentorship, resulting in measurable improvements in performance and contribution

AI & ML Fullstack Software Engineer II, C3.AI Partner Engineer via CATHEXIS

June 2024 - Present

Enterprise solutions engineering and software development at client C3.AI in the federal space (DoD)

[What I do](#) | [C3.AI Decision Advantage](#) | [C3.AI Contested Logistics](#)

- Partner w/ project managers to prepare app features for demo flows & contributed to client meetings to discuss feature requirements resulting in effective solutions for end users
- Lead sprint retro and standup meetings as scrum master / agile leader along with demoing features to pod
- Maintain end to end ownership of key features alongside proof of concepts, tech specs, development, and documentation to define a path forward such as:
 - Ingress and Egress Restful API to request and send data between web apps utilizing OAuth2 for authentication
 - Import / Export Microsoft documents in different formats using Pandas for data table manipulation and parsing
 - User Alerting and messaging with persistent chat
- Collaborated in a cross-functional team to design and develop an Agentic AI agent built off of C3 AI Platform that could utilize tools to streamline github PR creation for a hackathon event
- Supported the C3.AI training team to beta test new Machine Learning Forecasting Project capstone course and provide key feedback that helped shape the final product resulting in earning a [certificate](#) for completion
 - Scored 100% capstone grade, successfully creating a LightGBM pipeline from end to end on the C3 AI Platform

Technical Specialist, Apple

May 2019 - May 2020

- Triaged hardware / software issues with iOS devices in client facing role, performed diagnostics and produced technical writing for record keeping while building rapport and having empathy
- Excelled in cross-functional team collaborative environment involving different departments and roles that harmonized together to surprise and delight customers

Education

Bachelor's Degree in Computer Science at University of California Santa Cruz

September 2021 - June 2023

Additional Trainings: Nvidia Deep Learning Institute: Generative AI Explained, Apple Certified iOS Technician (ACiT)

Project Highlight

AI Fullstack Developer, Portfolio Website *Live at <https://www.nathanyuan.com>*

Present

- Engineer and deploy a full-stack, end-to-end portfolio website, featuring a GenAI chat panel powered by a Retrieval-Augmented Generation (RAG) system to provide dynamic content responses based on my background
- Utilize the following tech stack: Vite with React (frontend, hosted on Vercel), Python FastAPI (backend, hosted on Supabase w/ a postgres database), and Gemini API for AI integration

Skills

Tech Stack: Python, JavaScript, React.js, TypeScript, HTML, CSS, Json, SQL, Postgres, Cassandra

Technical Skills: APIs, Github Version Control, Terminal Environments, Jira, Clusters & Artifact Deployment, Python runtimes, Google workstations

AI: Artificial Intelligence, Machine Learning & Natural Language Processing / Large Language models, Prompt Engineering, Hyper Parameter Tuning, Pandas, Feature Engineering

Soft Skills: Collaborative Leadership, Communication, Adaptability, Problem Solving, Time Management, Cross-functional Teamwork, Mentorship, Stakeholder Engagement, Technical Writing, Decision Making
